

## SLIDING GHOST CARD

**Design by:** [KateSBOP](#) (1 Project)

**About me:** I am an incredibly blessed wife and mother. By day, I work as an Integration Facilitator at a local college. When I find free time, I love to create with paper.

I created this card using the Create a Critter 2 cartridge. The ghost slides along the top right portion of the card. The slider was created using pennies, pop dots and a Stampin' Up window punch. I embossed the house with a Tim Holtz folder and "stitched" around the edges. After cutting things out, I decided that the door area was too bright so I took the little door piece, embossed it, added a little gem and stuck it on! I also did some inking around things and gave my ghost a Peachy Keen eye and some rosy cheeks. The haunted fence was created with a Martha Stewart punch. I used a bit of a dryer sheet for the spooky cloud over the moon - and stamped a NEW My Craft Spot Ghostly Greetings "Boooo!" on the moon as well. The Halloween twine is from My Craft Spot.
