

CUPCAKE BIRTHDAY CARD

Design by: MssyQCD (1 Project)

About me: I'm a Christian, a wife, a mom, and a teacher. Running and scrapbooking are also very important parts of my life!!! I try to keep my designs quick and simple, time is

everything!!!

Project skill level: easy
Project time: 30 minutes to 1 hour
Project tags: Birthday Cards

This is a birthday card I made for a friend of mine at

church!!

CRICUT®: WHAT WAS USED

Oricut Expression® Machine

Cricut® Sweet Treats

STEP 1

I created this card by welding together 2 cupcake shadow images using my gypsy. I also cut all the layers. Everything was cut at 3.94. (The cardstock was from Papertrey Ink & the pattern paper was from My Mnd's Eye)

STEP 2

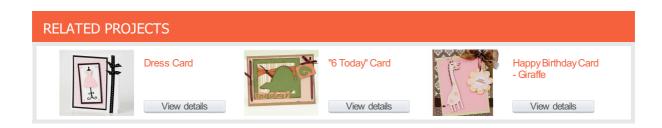

Once I got the card assembled, I ran the cupcake "frosting" through the D'Vine Swirls Cuttlebug folder and the flower through the Swiss Dots folder.

STEP 3

Next I added adhesive to the sprinkles and flower center and glittered them up. (I used my Xyron so they were good and sticky, along with Martha Stewart Coarse glitter.)

STFP 4

I finished the cupcake off by adding a crinke ribbon bow (My Craft Spot) along with a button and twine. (Papertrey Ink) I added some pearls from Mchael's and a sentiment from Papertrey Ink's Mxed Messages.
